

ANNUAL PROGRESS REPORT

SEATO Medic Study No. 63                      Bacteriologic Survey of Stools from Normal Thai Individuals

Project No. 3A 025601 A 811                      Military Medical Research Program S. E. Asia

Task 01:    Military Medical Research Program S. E. Asia

Subtask 01:    Military Medical Research Program SEASIA (Thailand)

Reporting Installation:                              US Army-SEATO Medical Research Laboratory, APO 146, San Francisco, California

    Division of Medical Research Laboratories

    Department of Bacteriology and Immunology

Period Covered by Report:                              1 April 1963 to 8 September 1963

Principal Investigator:                              Lt. Col. Sidney Gaines, MSC \*

Associate Investigator:                              Dr. Chiraphun Duangmani

Reports Control Symbol:                              MEBDH-288

Security Classification:                              UNCLASSIFIED

\* New assignment.
