

## FOREWORD

Once more, it is my pleasure as Secretary-General of the Southeast Asia Treaty Organization to introduce the Annual Progress Report of the SEATO Medical Research Laboratory for 1974-75.

The contributions over the years of the SEATO Medical Research Laboratory to medical science attest to its strong commitment to the improvement of the health of the people of the region. The present report is once again a clear witness to the tireless pursuit of medical knowledge and the varied research work undertaken by the laboratory in the year under review.

The hard work and dedication of the staff of the laboratory, to whom I wish all future success, will be evident to all who read the report.

A handwritten signature in cursive script, reading "Sunthorn Hongladarom". The signature is written in black ink and is centered on the page.

SUNTHORN HONGLADAROM  
Secretary - General
